

INEON <sup>Biotech.</sup>  
— Build together —

**FORGET EXCEL, MANAGE YOUR  
REAGENTS IN A FEW CLICKS**

# We look forward meeting you at our booth C68 in hall 4 !

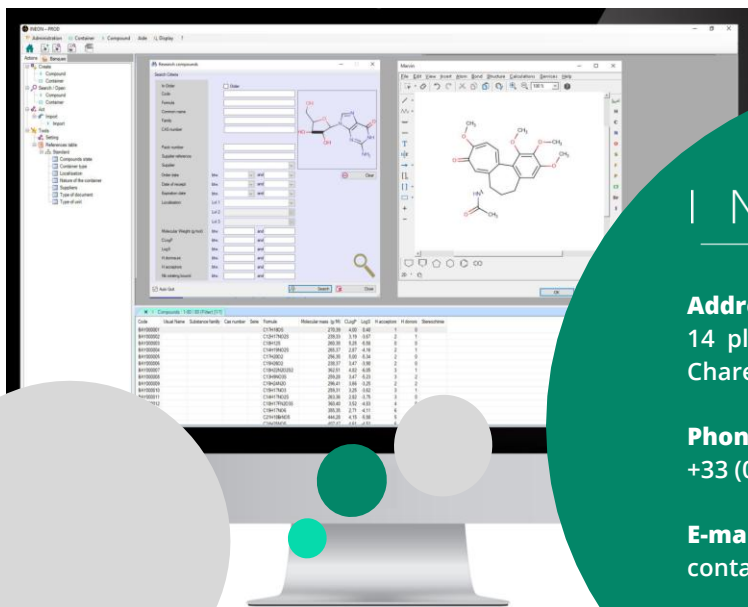

INEON Free is a reagents and inventory management software, for chemistry and biology laboratories, used to increase the valorization of your chemical library.

Update your inventory information, follow the current orders and anticipate those to come.

Quickly find the physico-chemical key information as well as chemical, logistical and structural parameters.
